

# MEASLES, MUMPS, RUBELLA (MMR) VACCINE

## MEASLES, MUMPS AND RUBELLA CAN ALL BE SPREAD PERSON TO PERSON.

**MEASLES AND MUMPS CAN ALSO SPREAD  
THROUGH THE AIR.**

Measles is especially contagious. Even someone who enters a room where a person with measles had been 2 hours earlier can catch the disease.

## MEASLES CAN BE SPREAD BY UNVACCINATED TRAVELERS

**RUBELLA INFECTION  
during pregnancy can  
cause miscarriage or  
serious birth defects.**
